

A/C CHARGING STATION

THE COMFORT OF A DOUBLE SOLUTION

Our A/C charging station for both R134a and R1234yf

GEMINI is the Itech proposal for the complete maintenance of both **R134a** and **R1234yf** vehicles A/C systems. This powerful machine is the result of the merger of two R134a and R1234yf stations that **operate completely independently of each other**, even in terms of power supply. In this way, in case of failure or maintenance of one of the two parts, the other will remain fully operational.

Equipped with internal vehicle **database** (updateable for the R1234yf part).

More info on www.itechct.it.

TECHNICAL SPECIFICATIONS	
COMPRESSOR	9 cc
VACUUM PUMP	2 cfm
GAS TANK	12 l (R134a) / 7 l (HFO)
FILTERS	High-efficiency
WORKING TEMPERATURE	Da 10 °C a 50 °C
VOLTAGE	230 V 50 Hz
DIMENSIONS	600x700x1350 mm
WEIGHT	110 kg (approx)

R134a
