

REcovery

A/C REFRIGERANT RECOVERING UNIT

RECOVERING IS MANDATORY

R134a recovering unit for vehicles destined to scrap market

Whether it is a damaged vehicle or simply intended for scrap market, **strict environmental regulations** and simple common sense impose the need to recover the refrigerant fluid still contained in the A/C circuit.

Recovery station recovers the R134a gas so that it can be correctly managed.

Extremely light and compact, Recovery can be equipped with an **optional filtering system**.
